GEPARKS at the GERMAN PARLIAMENT

At the German Parliament, the Presidente of Global Geoparks Network, Prof. Artur Sá, underlined that UNESCO Global Geoparks are engines of sustainable territorial transformation, where heritage drives innovation, communities lead development, and geotourism becomes a catalyst for long-term economic resilience and measurable local impact.

The Meeting was organized by MP Christoph Schmid (SPD) and included MPs from all the German Democratic Parties. The Global Geoparks Network was represented by Prof. Artur Sá, President, and Prof. Nickolas Zouros, Secretary-General, who presented the importance of Geoparks for the local communities and the activities of the Global Geoparks Network to support geotourism and local development. Dr. Jutta Weber, Speaker of the German Global Geoparks Network, made the main presentation followed by discussion among the participants.
